We registrate:

exhibited aircraft (at stand)*

Exhibitor demo flights (6-Min-Slot: 300.00 € zzgl. 19% MwSt.)**

* Please note that the information on this form is not to create the entry of your aircraft into the list of aircrafts which is published at www.aero-expo.com. The entry of your exhibited aircraft into this list can be done by oneself in the Online-Service-Center of AERO 2012 (available in February 2012 at www.aero-expo.com/exhibitors).

* The presented demo flights will take place over the close-by airport grounds on Wednesday, Thursday and Friday, from 1.30 pm to 2.30 pm. Please note that exhibitors who wish to conduct demo flights are requested to position a second airplane on the airport apron. Aircraft exhibited at the fair cannot be removed from the exhibition booth. Due to the narrow time window, participation in the exhibitor demo flight programme is only possible upon prior registration.

Customer Demonstration Flights

During the trade show, exhibitors will be given the opportunity to take prospective customers for a demo flight (no public air show). Exhibitors wishing to conduct demo flights are requested to position a second airplane on the airport apron. In order to make sure that the desired arrival and departure times for your customer flights are available, please use the slot reservation tool of Flughafen Friedrichshafen GmbH to book a slot.

A link to the Airport's website will be available at www.aero-expo.de from March 2011 onwards.

During the trade show, slots can be booked with the slot reservation office (phone number to be published at the beginning of the trade show) 24 hours prior to the intended demo flight.

Landing fees and other operating costs are not included in the booth fees and will be charged separately.
