AERODrones

Specialist trade fair AERODrones continues to grow +++ Strong partnership with Baden-Württemberg police +++ AERO to be held for the 30th time in 2024

## Leading drone manufacturers and operators exhibit at AERODrones

**Friedrichshafen - At AERO (April 17 - 20, 2024), unmanned aerial vehicles (UAV) will play a major role. The special three-day trade fair AERODrones (April 17 - 19, 2024) in Hall A2 is the ideal platform for drone providers and operators to present their products and services to an expert audience. Leading players in this up-and-coming aviation segment have already registered.**

Unmanned aerial vehicles, known as drones, are flying in the fast lane: there are now significantly more drones worldwide than manned aircraft. They fulfill a wide range of tasks for society. Accordingly, drones come in all sizes, from small, hand-launched helicopters to huge reconnaissance drones that are the size of a commercial aircraft.

As a trade fair within the show, AERODrones is an integral part of AERO 2024 (April 17 - 20, 2024). It will be taking place for the fourth time in 2024 and will occupy its own hall, the A2 in Friedrichshafen. It will open its doors for three days (April 17 - 19, 2024).

"Drones can be found in almost all areas of life today and their importance will continue to grow. AERODrones will undoubtedly contribute to the success of the anniversary AERO 2024! At AERODrones, we will continue to focus on drones in public safety operations and are delighted about the proven, strong partnership with the Baden-Württemberg police", says Tobias Bretzel, AERO show director at fairnamic GmbH.

Major players from the unmanned aircraft sector have already registered to exhibit at AERODrones, including DJI, SAB Group, Droniq, Securiton, M4com, the Bavarian Red Cross and the Baden-Württemberg police. For the first time, companies from northern Germany will be exhibiting their products and services relating to unmanned aviation in a northern German pavilion.

As the world's leading trade fair for general aviation, air sports and business aviation, AERO is the ideal platform for AERODrones, as it brings together stakeholders from manned and unmanned aviation and allows them to discuss important topics such as the integration of drones into airspace.

Martin Landgraf, Deputy Head of the Baden-Württemberg Police Helicopter Squadron, says: "The Baden-Württemberg police is delighted to be a strong partner again at the fourth AERODrones drone event at the anniversary AERO in Friedrichshafen. For us, AERODrones is an important platform for the exchange of knowledge and experience between all those involved, from drone manufacturers to users and public safety organizations."

#### **About AERO:**

AERO 2024 will take place from April 17 - 20, 2024 at the Messe Friedrichshafen exhibition center. AERO is the leading international trade show for General Aviation, business aviation and air sports. Aircraft ranging from civilian drones to gliders, ultralights and gyrocopters, helicopters, touring and training aircraft powered by piston engines or turboprops, and business jets will be on display. New propulsion systems, electric flight, state-of-the-art avionics, services and accessories for pilots are further focal points. These topics are also reflected in the AERO Conferences, making Europe's largest general aviation event also an important platform for knowledge exchange and continuing education. In the run-up to AERO 2024, the AERO Media Awards will be presented for the first time.

#### **About fairnamic GmbH:**

With the founding of fairnamic GmbH, the Frankfurt and Friedrichshafen trade fair companies have sealed a partnership with a focus on innovative mobility. Combined expertise as well as market knowledge, global positioning, brand strength and speed will strengthen the market position in the future markets of General Aviation, micromobility, e-bikes and bicycles. The AERO and Eurobike brands and their satellites form the focus of the joint venture. The aim is to expand and further develop the two leading trade shows.
